DELASOFT

Delasoft is a software services and products company providing technology services to empower state, county, municipal, and commercial clients to make smarter, more-informed decisions. Delasoft has more than 10 years of experience providing a broad range of IT projects varying in size and complexity. Delasoft has extensive experience providing Programming, Project Management, Software Development, IT Architecture, Application Services and GIS technical expertise for a number of governmental agencies for the purposes of assisting such departments with their unique IT needs. Government clients include the Judicial Council of California – California Courts, the New Mexico Department of Transportation, Delaware Department of Transportation, and Delaware Department of Corrections. In addition to the government sector, our experience spans various industries including Pharmaceutical, Manufacturing, Banking, Healthcare, Insurance, Finance, Retail, Technology and Telecommunications. Our certified engineers have consulted Fortune 500 clients including WestRock, Emerson, Office Depot, and CommVault.
